8.0	November 2017	Catherine Sharp	Additional information about the Internet Explorer option to send UTF-8 query strings – see page 8.

BROWSER SETTINGS

SUPPORTED BROWSERS

The browsers supported for use with the ProCon Contractor Portal are Internet Explorer 11 and Google Chrome.

The AVEVA ProCon Document Control add-on supports Microsoft Office 2007, 2010, 2013 and Office 365 (Office 2016). See [AVEVA ProCon Document Control](#).

Tip: To support the Document Control, it is recommended that you use the 32-bit version of Internet Explorer.

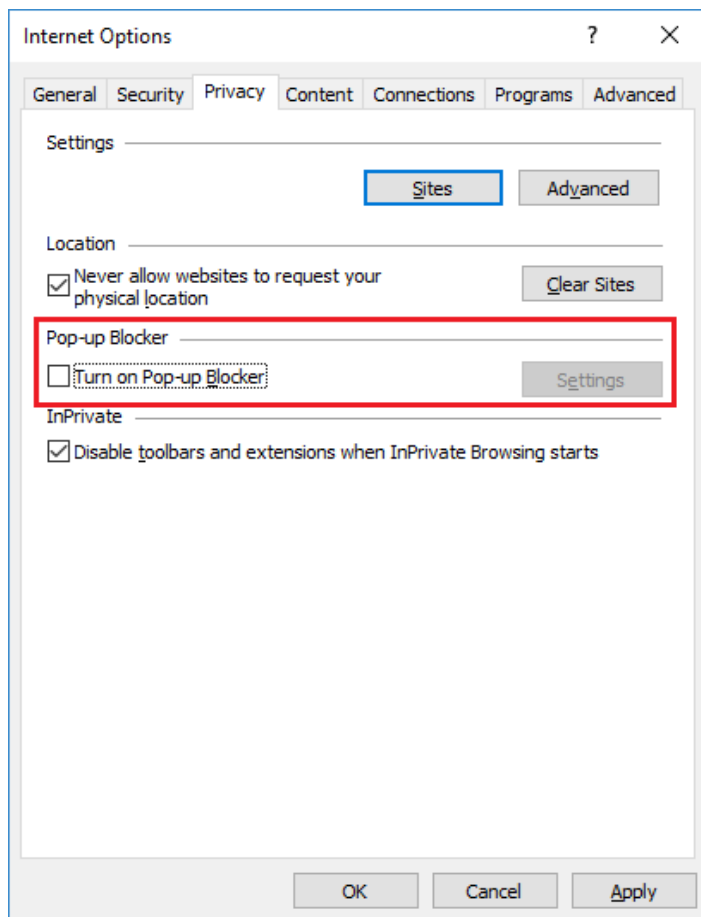

BROWSER OPTIONS

The following options should be set for your browser:

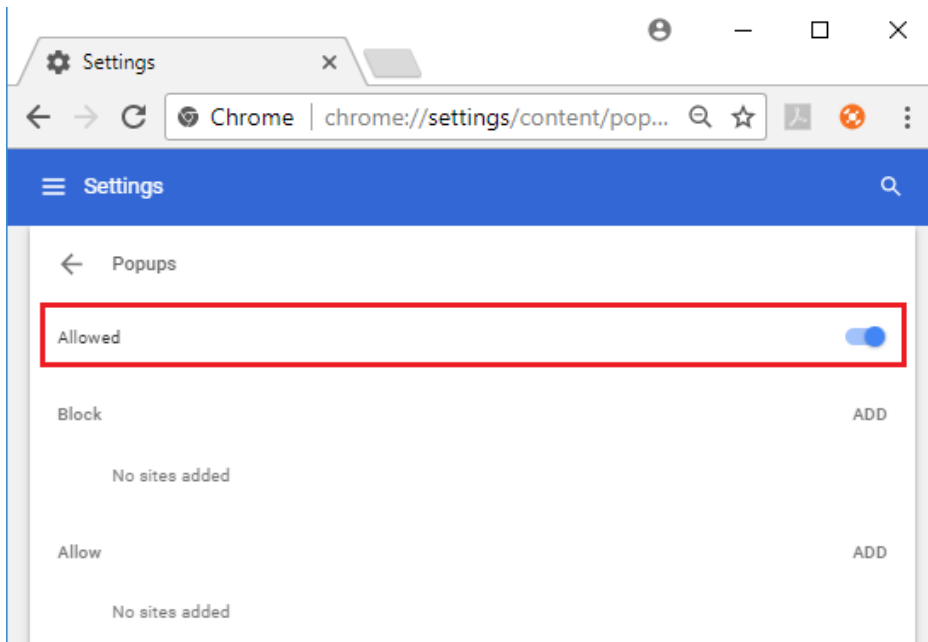

- ▲ Disable pop-up blockers. These can include third-party toolbars and anti-virus applications as well as the browser's own pop-up blocker.

For Internet Explorer, go to:

- △ Windows Control Panel > Internet Options > Privacy tab
- △ Internet Explorer > Tools > Internet Options > Privacy tab

For Chrome, go to Settings > Advanced Settings > Content Settings > Popups.

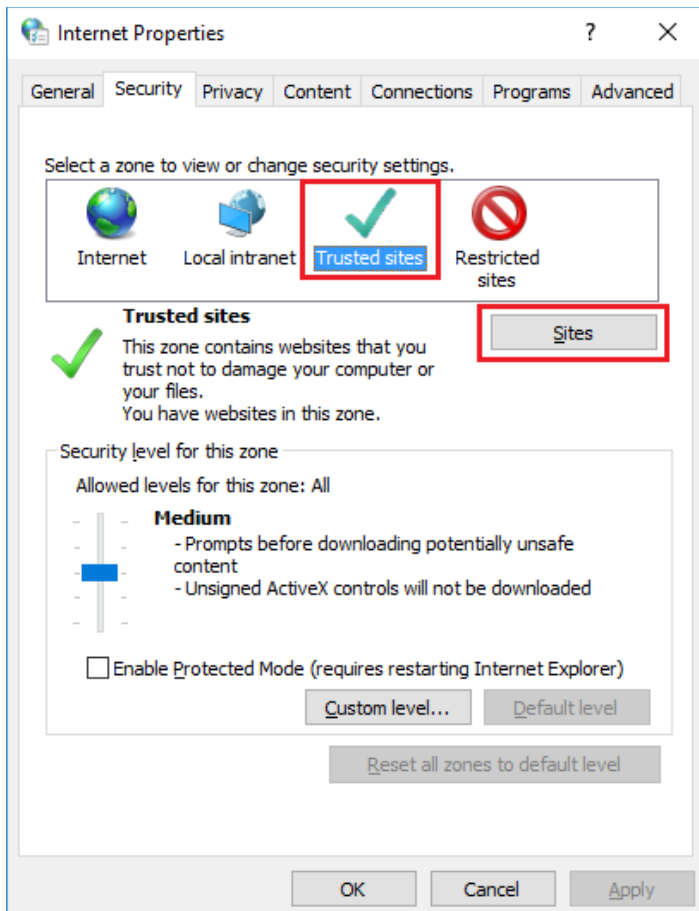

- ▲ Add the ProCon Contractor Portal website to your computer's trusted sites on the Security tab of the Internet Options dialog box.

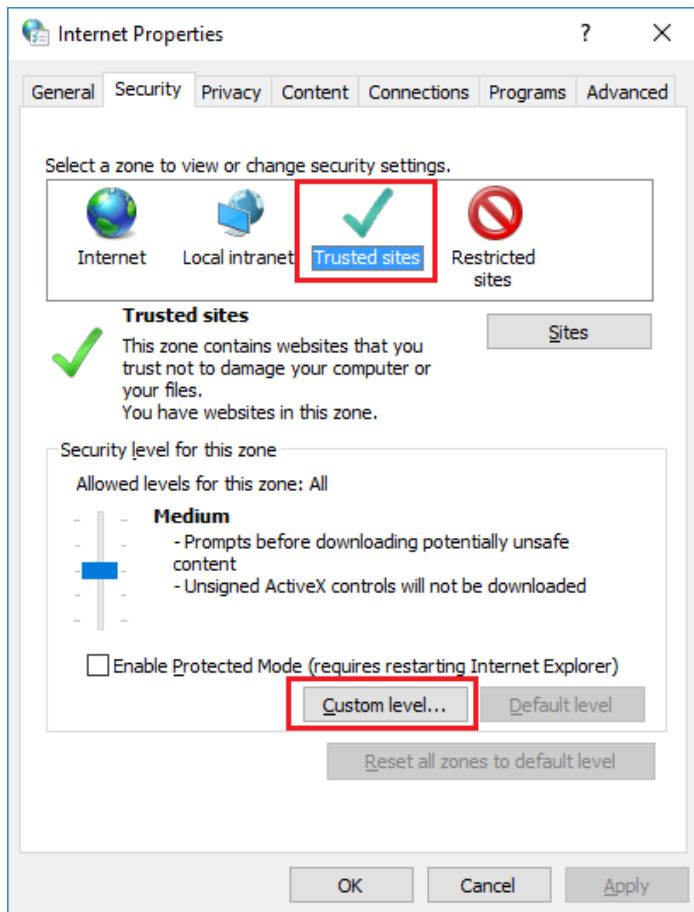

In Internet Explorer, go to:

- △ Windows Control Panel > Internet Options
- △ Internet Explorer > Tools > Internet Options

In Chrome, go to Settings > Advanced Settings > Open Proxy Settings.

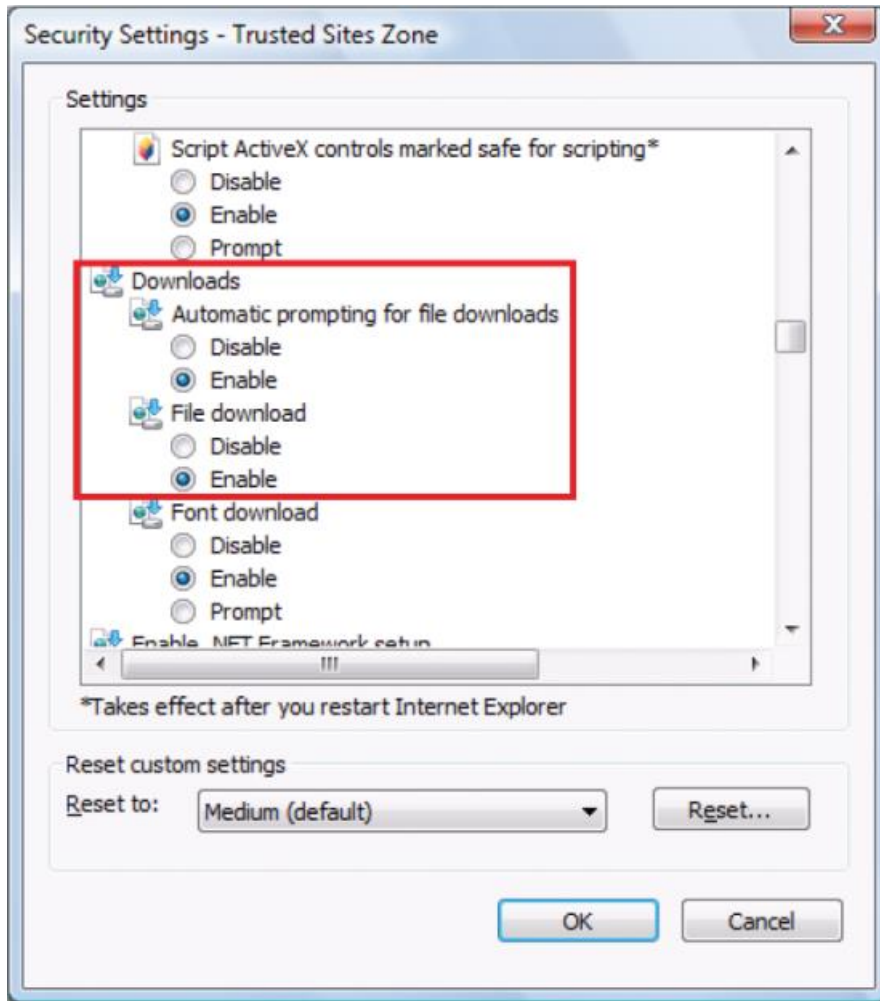

- ▲ For Internet Explorer only, configure ActiveX options – these are needed for the Document Control (see [Installing Document Control](#)):
 - a. In Internet Explorer, open *Internet Options* from the **Tools** menu.
 - b. On the Security tab, select **Trusted Sites** and click **Custom Level**.
 - c. Select **Enable** for:
 - **Automatic prompting for ActiveX controls**
 - **Run ActiveX controls and plug-ins**
 - d. Select **Prompt** for:
 - **Download signed ActiveX controls**
 - **Download unsigned ActiveX controls**
 - ▲ Configure the Downloads options to allow ProCon files to be downloaded to your computer.
 - a. In Internet Explorer, go to:
 - Windows Control Panel > Internet Options
 - Internet Explorer > Tools > Internet Options
- In Chrome, go to Settings > Advanced Settings > Open Proxy Settings.

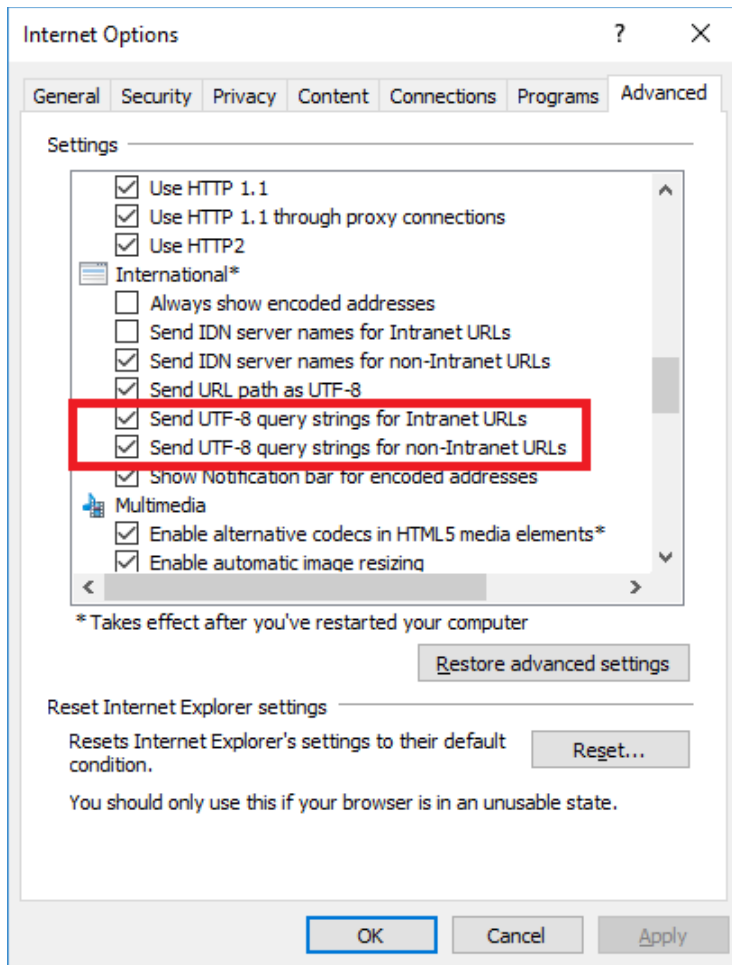

- b. On the Security tab, select **Trusted Sites** and click **Custom Level**.

- c. Select **Enable** for **File download**.

- ▲ For Internet Explorer only, allow the browser to send UTF-8 query strings (e.g. so that ProCon performs correctly in Russian):
 - a. In Internet Explorer, go to:
 - ▲ Windows Control Panel > Internet Options
 - ▲ Internet Explorer > Tools > Internet Options
 - b. On the Advanced tab, select:
 - ▲ **Send UTF-8 query strings for Intranet URLs**
 - ▲ **Send UTF-8 query strings for non-Intranet URLs**

AVEVA PROCON DOCUMENT CONTROL

The AVEVA ProCon Document Control browser add-on provides the following features for contract libraries and contract communication attachments:

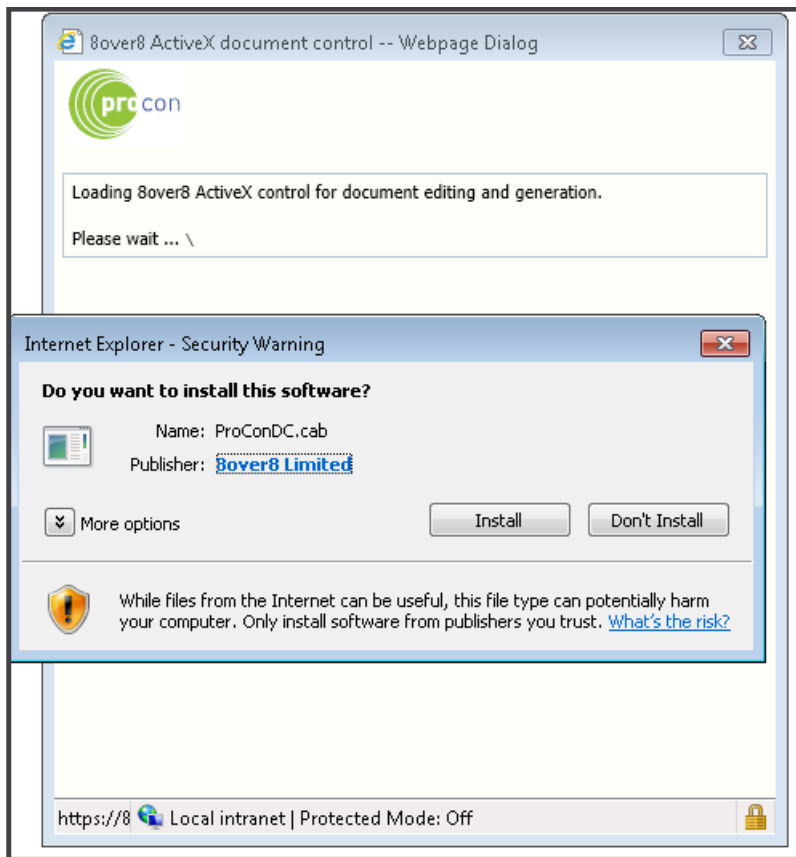

- ▲ The ability to copy and paste documents from your computer.
- ▲ The ability to drag and drop documents from your computer.
- ▲ The ability to edit documents online with integrated editing. Changes to the document are detected and user is prompted to update the document in ProCon if the file has changed.

The Document ProCon Control add-on supports Microsoft Office 2007, 2010, 2013 and Office 365 (Office 2016).

Note: This functionality is only available in Internet Explorer.

INSTALLING DOCUMENT CONTROL

When you log in to ProCon and browse to the contract library or a contract communication for the first time, you are prompted to install the ProCon Document Control as an add-on for Internet Explorer.

Click **Install** to install the add-on. When the installation is complete, the dialog box closes automatically.

FREQUENTLY ASKED QUESTIONS

Where are the files I downloaded from ProCon?

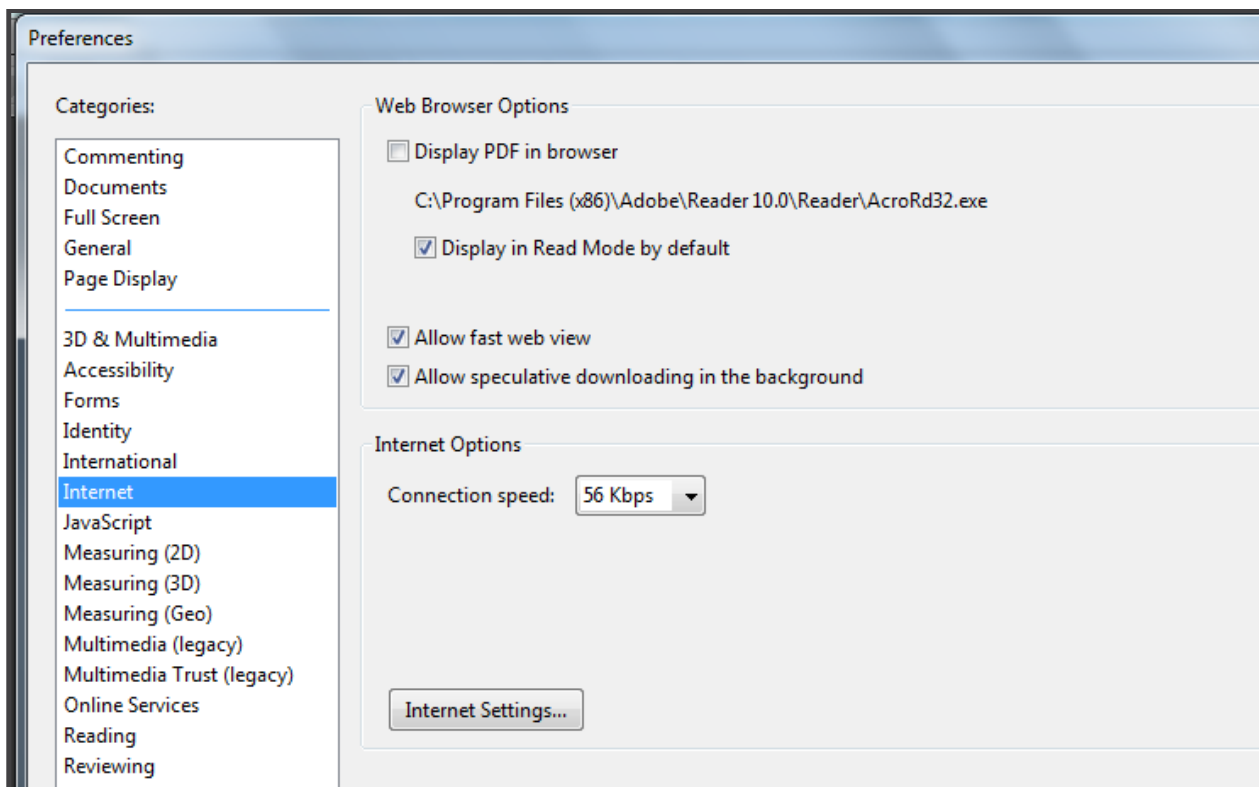

The files that you download from ProCon are stored in your Windows *%temp%* folder.

Why is a blank screen appearing when I open a PDF file?

Sometimes when you open a PDF file from ProCon, a blank window appears instead of the PDF file. This can happen due to a combination of the operating system, Internet Explorer browser and Adobe Reader version in use.

To resolve this issue, you should either upgrade to the latest version of Adobe Reader, or set Adobe Reader to prompt the user to save the file to disk.

You should also ensure that the **Display PDF in Browser** option is cleared in the Adobe Reader Preferences.
